

# Volunteer with I-TEC

## Mission Statement

I-TEC is a non-denominational ministry utilizing volunteers to meet the technical needs of missionaries and not-for-profit organizations worldwide.

## Where To Volunteer

### Locally:

Help at our facilities  
in Pennsylvania &  
Washington

### Travel:

Help with projects  
internationally &  
around the U.S.

## How To Volunteer

Go to our website:  
**itec.org**

See our  
**Upcoming Projects**  
(Look under Projects)

Fill out a  
**Volunteer Application**  
(Look under Volunteer  
Opportunities)

## Theme Verse

“Therefore, as we have opportunity,  
let us do good to all people,  
especially to those who belong to  
the family of believers.”  
Galatians 6:10

## Purpose Statement

To advance the message  
that Jesus Christ is the  
light of the world by  
“**Powering Missions  
Worldwide**”

Evangelical Council for  
Financial Accountability ®

I-TEC's main objective is to **"Power Missions Worldwide"** by providing reliable electricity where it is needed most. In remote areas of the world, solar electricity can often help with this problem. I-TEC needs solar engineers, solar installers and technicians to help meet this growing need around the world.

### Solar Engineers

### Solar Installers

### Electricians

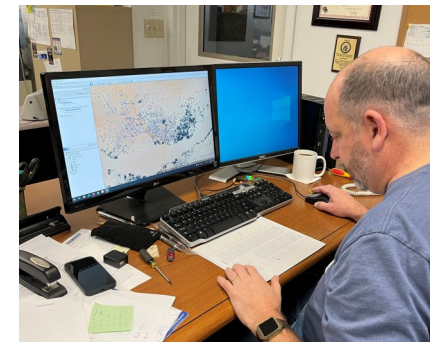

Many of I-TEC's projects involve installing, repairing and upgrading electrical systems at missionary hospitals, Bible training centers, Christian camps, Christian radio stations and other ministries. We need volunteers with experience and practical skills who can help with various electrical projects.

### Linemen

As internet access expands across the globe, I-TEC is tapping into its advantages. Many of our projects are connected to the internet which allows our team to do remote monitoring and troubleshooting. Volunteer with I-TEC to use your technical skills for this growing need!

### I.T. Personnel/Remote Monitoring

### Mechanical, Construction & General Labor
