

I-TEC UPDATE December 2020

Thanksgiving and Christmas are precious times for us to reflect on our blessings and look forward to the future. Everything we do at I-TEC is because of God's plan put in motion through the Birth of Jesus Christ.

Our board and staff are constantly seeking ways to follow our God given vision of Powering Missions Worldwide. Circumstances and methods may change but it is exciting to see God open doors in new ways that continue to allow us to be a small part in the Great Commission. In that we are humbled! Thank you Jesus!

We want to continue highlighting our staff. This month it is the Montei Family. Brian is our Mechanical Team Leader.

International Technical
Electric & Construction

News from the Montei Family:

While our location may have changed from living in Papua New Guinea to living on a farm in Central, Pennsylvania, our passion for Missions has not changed as well as our passion to serve Missionaries worldwide. We have seen many changes these past two years and we continue to trust God is at work with a perfect plan as we serve as Missionaries with [I-TEC](#). 2020 has been a change for all of us and while most of our trips this year were canceled we see God's hand even in this. We were able to make it to Alaska and encourage our friends at [Helping Hands Alaska](#). It was a joy to be able to work with them and be part of what they do first hand! Being grounded we have had the joy of working on projects at [I-TEC](#) that have been on the back burner. With the world shut down, we were finally able to focus on our Mission center, vehicle fleet while building relationships with our volunteers that faithfully serve each week. We were also given the opportunity to work on local missionaries and pastors vehicles. Brian has been able to help our pastor from our home church as well as the Ethnos 360 vehicles and tractors. We hope as word gets out we can bless others as they have need and we have time.

Thank you for praying for our family. If God lays us on your heart please know we appreciate your prayer. Our support has dropped by more than one third and while we are able to make ends meet it gets pretty tight each month. If you would like to support our family you can go to the [I-TEC](#) sight and click on the option, Donations by Paypal, where you can find our family. You can send donations by Paypal or send a check to I-TEC for our family at I-TEC 23 Green Hollow Road, Montoursville, PA 17754. Thank you to those that support our ministry and thank you for considering joining our support team! It's a privilege to serve God and trust Him to supply for our needs. We appreciate you and we are so thankful for your interest in our ministry as we strive to serve global Missions in an ever-changing world. God Bless you!

Thank you for your part, through prayer and financial support of I-TEC, our staff and our volunteers. From all of us at I-TEC, we wish you a Merry, Christ Centered, Christmas.

If you would like to have a written year end receipt, contact the office at 570-433-0777 or email kerry.grasser@itec.org
