

I-TEC UPDATE January 2021

1 Corinthians 15:58

“Therefore, my dear brothers, stand firm. Let nothing move you. Always give yourselves fully to the work of the Lord, because you know that your labor in the Lord is not in vain.”

I write this on the day before the presidential inauguration. I am not going to complain or be discouraged by a long list of fears and concerns. God is NOT surprised by this moment in history so I will put my faith and energy behind his marching orders to the Christians through the apostle Paul back in AD 55.

This is NOT a time to sit back and wait until things settle down or return to what we remember as normal. That may never happen so let's keep our eyes on the finish line and remember our marching orders. We are in a spiritual war and there are so many who have no hope because they have never heard the gospel of Jesus Christ.

We cannot and will not stop pushing forward finding new ways to
Power Missions Worldwide.

Your faithful contributions to I-TEC, our staff and volunteers are proof that you feel the same way and I want to assure you that our focus has not changed. Thank you for being part of our team.

International Technical
Electric & Construction

Prayer Request

Robert and Terri Harmon

The sale of their house and relocation plans.

Texas Young Life

Plans are in progress to begin in April.

Nundu Hospital, DRC

The new lithium batteries are on the boarder of Uganda and DRC.

HAITI

Repair work on two projects in Haiti need our team to be on site. The Covid restrictions are making it very difficult.

So, what is happening NOW!!!

1. Michael Fisher continues to work daily on existing and new projects via on line support and new project design. One project is a solar design for Hope for Congo radio station which is able to reach 8 million people for Christ, mostly in Democratic Republic of Congo.
2. Brian Montei has been expanding the mechanical ministry of I-TEC, opening the doors for mechanical support to vehicles owned by full time missionaries and pastors located in PA.
3. The Miguel Villa family are on site at the Young Life project near Vanderpool Texas. While waiting on the I-TEC team to arrive, the Villa family has been volunteering for Young Life assisting them on construction projects in preparation of the camp ministry planned for the summer of 2021.
4. Matt Aungst has been working with John Bennetch on the ongoing generator problems at Nundu hospital DRC. Making great progress!!

Galatians 6:10
