

# I-TEC UPDATE February 2021

**Anticipation** is the word that comes to mind first when I think of February 2021.

1. We **wait with anticipation** for the batteries to arrive at the Nundu Deaconess Hospital in DRC. They have finally arrived in country but now the road is under water and they are trying to arrange a boat delivery off of Lake Tanganyika.

This picture is the “road” leading to the Nundu Hospital. We of course are concerned about \$32,000. worth of batteries. ***Please pray for wisdom for those in DRC making those decisions.***

2. We **wait with anticipation** for final approval of the Young Life project located near Vanderpool Texas. Materials have been located for the installation, and many volunteers have committed to two or three weeks in April. This project will enable Young Life to expand their campus as they present Christ to thousands of youth in 2021 and beyond.

Most of all, we ***wait with anticipation*** for the return of Jesus Christ.

International Technical  
Electric & Construction

## Prayer Request

Please ***continue to pray for I-TEC*** as we make decisions on travel and doing off site support for many missions asking for our help.

***I-TEC continues to look for ways to keep our overhead low so we can focus on Powering Missions Worldwide.***

***We continue to operate without salaries for anyone in the leadership of I-TEC.***

***The Harmons are excited to join the I-TEC Team this spring! They are in the process of selling their house in Missouri and will be moving to Pennsylvania in late March. They have been praying about purchasing a house near I-TEC and God answered that prayer!***

***They are also praising God for providing 72% of their needed monthly support and are praying for Him to supply the rest.***

***Once the Harmons get settled, Robert is slated to help in the areas of computer maintenance, solar electric consulting and maintaining the material acquisition process for various projects. Terri will be helping part-time in the office.***

***They are looking forward to getting to know the I-TEC team as well as those in their new community. Please keep praying for them as they transition to their new lives and ministries in Pennsylvania.***
