

# Solar Engineers & Technicians Needed

Experience the satisfaction of making a life-changing difference using solar electricity in missionary efforts around the world! Use your skills to help install and maintain solar electric systems used at mission hospitals, Christian schools, camps, radio stations and children's homes.

International Technical  
Electric & Construction

## Mission Statement

I-TEC is a non-denominational ministry utilizing volunteers to meet the technical needs of missionaries and not-for-profit organizations

# PowerPac!

Learn about I-TEC's **PowerPac** which is built at our facilities in Pennsylvania and shipped to various locations around the world!

**Come help** the I-TEC team build, install and maintain these revolutionary pieces of equipment.

## Purpose Statement

To advance the message that  
Jesus Christ is the Light  
of the world by  
"Powering Missions Worldwide."

**To learn more** about how to volunteer your professional skills and make a difference worldwide, call **570.433.0777** or visit **itec.org** to see **upcoming projects and opportunities.**

**We look forward to hearing from you!**

## Our Theme Verse: Galatians 6:10

"Therefore, as we have opportunity, let us do good to all people, especially to those who belong to the family of believers."
